OneStop for passengers with checked baggage

OneStop is available at Houston International for passengers arriving on United, and immediately departing on another United or United Express operated international flight.

For example: London (LHR) - Houston (IAH) - Cancun (CUN)

Passengers with checked baggage do not have to claim and clear their bags at Houston as baggage is automatically transferred between aircraft.

However, passengers must still be inspected by U.S. Customs and Border Protection (CBP) and benefit from a dedicated inspection area, which is designated with OneStop signage.

OneStop for passengers with hand baggage only

Passengers with hand baggage only are also eligible to use the dedicated OneStop inspection area at U.S. Customs and Border Protection (CBP) regardless of whether they are making an international or U.S. domestic connection or if their final destination is Houston.

*There is no membership or registration required to participate in OneStop. Eligible travelers should follow signage to the designated lanes.

**OneStop is also available at Chicago O'Hare for passengers with hand baggage only.
